

HOSTEL SERIES OPTIONS

The Alrick Hostel Series encompasses a range of timber-look head and foot boards which are a popular choice for hostels, nursing homes and home care. These head and foot boards suit nearly all of the Alrick Series beds, and ward furniture can be manufactured to match. We also offer custom manufacture of end boards and ward furniture in colours and finishes of the customer's choice on request. Contact us and tell us what model bed you are after and we can quote you to have these timber-look endboards on your bed to transform a room and make it feel not so much like a hospital bed.
